Indonesia's luxury boom is going online

- Fuelled by increasing purchasing power among upper middle to high income groups, and the middle class becoming increasingly brand conscious, sales of luxury items continues to grow in Indonesia.
- Indonesia is home to 55 million online population. e-Commerce transaction values are growing fast in the country, thanks to the state's ongoing investments in Internet infrastructure, low-cost mobile broadband data plans, and more secure payment networks.

Agility Research & Strategy

Methodology

- **The Agility Affluent Insights** was conducted online among 1500 (equally distributed) affluent respondents in 5 countries - China, Hong Kong, Singapore, Indonesia and the US.
- The respondents were representative of the online population in terms of age and gender, aged 18-59 years old.
- Our definition of the affluent consumer is as follows:

Country	Affluent Definition
China	CNY 180,000 and above
Hong Kong	HKD 720,000 and above
Singapore	SGD 100,000 and above
Indonesia	IDR 160,000,000 and above
United States	USD 90,000 and above

There will be over a billion affluent consumers in Asia over the next decade.
